

RECORDING FACILITIES RATE SHEET

“There’s nowhere else on the planet that’s capable of doing what this recording facility is capable of doing.”

– Martin Pilchner, Pilchner Schoustal International Inc.

Overview

A boutique style recording environment, NMC studios are uniquely positioned in a class of their own. We invite you to experiment, perform and record in one of the most unique recording environments in the world.

The studio environments include three control rooms, three live rooms, three isolation booths, one live music venue, and access to over 300 musical instruments spanning 450 years of music technology.

Record using one of three historic analogue consoles in any combination of adjoining live rooms. Each live room is designed to have its own sound and has a selection of historic musical instruments suited for the uniquely designed spaces.

The recording facilities at Studio Bell were designed to provide artists access through NMC artist in residence programs. The facilities will also be made available for limited commercial access. Revenue raised through commercial access will directly benefit the care and preservation of this unique living collection.

Notes:

- Rentals include House Engineer, Studio Assistant and access to the Artist Lounge.
- Specific musical instrument requests are subject to moving and set up costs.
- Mobile recording recording facilities, pricing is subject to the needs of your project
- All rates subject to change without notice.
